

ROMIC Rental

Locomotive / Rolling Stock

For short or long term rental:

Class 20 Diesel-Electric Locomotives

Main photo: Maisie Gordge

ROMIC Group is pleased to be able to offer our Class 20 diesel-electric locomotives for hire. The Class 20 is a veteran of the rail network, and one of our pair - 20007 - is the oldest mainline registered locomotive in the UK.

Impeccably maintained, these locomotives are ideal for **railtours** and **charters** (with an ETH equipped locomotive top and tailed), **infrastructure** and **engineering** use, **stock movements** and **heritage events**.

Our Class 20s can be provided singly or as a pair, and with or without drivers (drivers provided through our operating partner).

Our locomotives are maintained by our appointed ECM and subject to all statutory inspection and maintenance exams.

ROMIC Group carry **£10M public and product liability insurance** in respect of rolling stock rentals.

Please contact us to discuss your requirements.
